

SOCIALISM2017

JULY 6-9 CHICAGO

BUILD THE LEFT • FIGHT THE RIGHT

Join more than 1,500 leftwing activists and authors in Chicago to share lessons from history, learn about Marxist theory, discuss current struggles, explore socialist ideas, and debate current issues on the left. The same political system that spawned Trump cannot be relied on to stop his attacks—instead we must look to the millions of people who will continue to resist.

The conference will feature hundreds of meetings on topics including Black History and Politics, Debates on the Left, Introduction to Marxism, Understanding the Trump Era, Women and LGBTQ Liberation, Strike!: US Labor History and many more.
